

URGENT MONEY MATTERS

For urgent money matters the following 3 steps are the same if you are having trouble paying electricity, gas, water or mobile, phone or internet bills, debt repayments including rent or mortgage, pay day loans or Buy Now Pay Later repayments.

WHAT TO DO IF YOU ARE HAVING TROUBLE PAYING BILLS OR DEBT REPAYMENTS

Key messages for people having trouble paying bills or debt repayments:

- Know how much you can afford to pay – work this out before you call or agree to any payment plan
- Contact the provider as soon as possible – let them know you are having trouble paying
- There are discounts and grants available to people on low income

Steps To Take

1. Work out how much you can afford to pay

(either as a lump sum or on a regular payment plan) If you are required to make a payment plan, it is important to know beforehand how much you can realistically afford. Find out about developing a money plan here.

2. Contact your provider to let them know you are having trouble paying

Tell the provider you can't pay at the moment. You can ask to speak to the hardship department who are trained to support you in the best way possible. You can call, email or check their website for self-service options. We have included some hints on what you can say here.

3. Request confirmation of any new payment arrangements in writing

Keep this for your own records, and as a reminder of your new arrangement.

4. If you think you have been treated unfairly you can make a complaint

Before making a complaint to the relevant authority, you must try to resolve the issue with your provider. If you are still unsatisfied, contact the relevant external dispute authority with details of your complaint.

WHAT TO SAY WHEN CALLING ABOUT TROUBLE PAYING ANY OF THE ABOVE

Things are tight at the moment and I'm unable to pay my bill /make my repayment. Can I speak to the hardship team?

Thanks for calling to let us know. I will get some details from you, then we can sort out a plan to support you

Most utility companies & lenders have hardship teams who are trained to give you the best support

Can I ask a bit about what has been happening that means you can't pay?

I am on Centrelink, and I've had some unexpected medical expenses (This is an example)

Let them know what is happening for you so they can work out how best to support you

I'm sorry to hear that. When do you think you will be able to pay?

I've done a budget and I can pay \$15 per fortnight from my Centrelink payment

Be realistic about how much you can pay and how often

We'd like you to be paying more than that, otherwise it will take quite a few months to pay off your debt

I have to pay for rent and food so \$15 is all I can afford at the moment

Ok, I will need to get some evidence including your recent bank statements

Most lenders will ask for some evidence of your financial situation

Can you please send me the dates and how much I need to pay?

You will get an email confirming everything we have discussed today. Please call us again if something changes and you are unable to make the payments we have arranged.

Be sure to get everything you discussed put writing

Is there anything else I can help you with today?

No thanks, thank you for your help.

I'd like to make a complaint about xxx, can you please put me through to the right area?

If you are unhappy with the outcome of the call, or feel you have been treated unfairly, you can make a complaint
